TECNOLOGIA EUROPÉIA

# DRIFT BRASIL

Atuante no setor de mobilidade, orientando-se pela tecnologia, inovação e sustentabilidade, a Drift Brasil desenvolve soluções para o segmento automotivo brasileiro em sinergia com seus parceiros nacionais e internacionais. Por meio do Know-how destas grandes parcerias, ao longo de sua história, principalmente as de origem internacional – hoje em união com a Klaus Automotive Corporation, da Inglaterra – a Drift Brasil, está sempre apta a oferecer o que há de melhor em tecnologia de ponta presente nas principais linhas de produção do mundo.

"A Klaus Corporation é uma empresa britânica especializada no fornecimento de manufatura e insumos para indústrias. Fundada em 1999, com sede na Inglaterra, a empresa nasceu do sucesso de sua equipe ao fornecer peças e componentes originais para diversas indústrias do mercado automotivo mundial. Com experiência de quase 20 anos de mercado, a direção da empresa preza pela excelência tecnológica para que seus produtos sejam desenvolvidos através dos mais elevados padrões de qualidade industrial e responsabilidade ambiental".

Klaus Corporation, 2014

A Drift Brasil, Opera desde 2007, no setor automotivo brasileiro, em parcerias exclusivas com grandes grupos Europeus atendendo a marcante demanda aftermarket (pós-venda) em reposição de peças e componentes automotivos, assim como algumas empresas de montagem. Hoje, os negócios do qual a Drift faz parte, é composto por mais de 20 empresas de atuação global, sendo todas, referências em seus mercados. De grande importância e benefício, todas essas relações entre parceiros estão diretamente ligadas à troca de tecnologia, e correlacionam inovação, tecnologia e qualidade a todos os produtos Drift.

Todo o conhecimento e experiência destes grupos, os quais estão entre os principais fornecedores de insumos para as principais montadoras e também de empresas do setor de produtos de eletrodoméstico, proporcionaram à Drift Brasil, trabalhar com sofisticados critérios internos de tecnologia, qualidade e inovação, ocasionando o aumento da qualidade de seus serviços por meio de certificações internacionais, as quais atendente as mais rigorosas exigências de gestão de qualidade.

*Active in the mobility sector, guided by technology, innovation and sustainability, Drift Brazil develops solutions for the Brazilian automotive industry in synergy with its national and international partners. Through the know-how of these great partnerships, throughout its history, especially of international origin - today in union with Klaus Automotive Corporation, England - Drift Brazil, is always able to offer the best in high technology on world's production lines.*

*"Klaus Corporation is a British company specializing in providing manufacturing and supplies for industries. Founded in 1999 with headquarters in England, the company was born from the success of your team by providing original pieces and components for various industries in the global automotive market. With experience of nearly 20 years of market, the direction of the company stands for technological excellence to their products to be developed by the highest industry quality standards and environmental responsibility."*

Klaus Corporation, 2014

*Drift Brazil, operating since 2007, in the Brazilian automotive sector, in exclusive partnerships with major European groups attending striking aftermarket demand (aftermarket) in spare pieces and automotive components, as well as some assemblers. Today, the range of business where Drift is part of, consists of over 20 companies operating globally, all them are references in their markets. Of great importance and benefit, all these relations between partners are directly linked to the exchange of technology, and correlate innovation, led per the quality products from Drift.*

*All the knowledge and expertise of those groups, which are among the major suppliers of inputs for the leading automakers and also the appliance products sector companies, provided to Drift Brazil the range of working with sophisticated internal criteria of quality, technology and innovation, leading increasing the quality of its services through international certifications, which meet the strictest quality management requirements.*
